For all of your Wellness, Warming,
Beauty & Gifting needs

A Letter From Our MD

‘Firstly I would like to wish you all a Happy New Year and extend my thoughts and best wishes to you and your families after what has been a very tough year. There is no doubt that 2020 will go down in history as one of the most challenging on record, with a Covid-19 and Brexit as the back drop to the year, a lot of businesses, both suppliers and retailers alike, have seen major impacts on trading, some with devasting effect. Our business has been no different. We have had to constantly take stock of our trading position throughout the year, especially through the lockdown in Spring, but our overriding ambition was to ensure we had a sustainable busines for the future, both for our trusted partners, employees and consumers. This ambition enabled us to end the year in a strong position and with a positive outlook on 2021, despite the ongoing uncertainty we all face. The culmination of this is what we present to you in our Spring/Summer 2021 brochure, I am sure you will agree with new products, new ranges and new brands to share, our portfolio is stronger than it has ever been. You will also notice we are no longer Danielle Creations but trading under a new company name; Upper Canada UK, this is to better portray the global business that we are and being wholly owned by Toronto based Upper Canada Soap, it made strategic sense to come under the parent company banner, don’t worry though, we are still Danielle at heart, a proud UK business with an entrepreneurial flair underpinned by innovation in Beauty, Wellness, Warming & Gift – Enjoy !

Body Wraps

Hot & Cold Therapy

Hot and cold therapies are a great natural pain reliever and can be used to treat a variety of different ailments.
Our wellness and warming products have been designed to help ease aches and pains using natural hot and cold therapy combined with the therapeutic benefits of added essential oils.

Hot Therapies

Applying heat to sore and tightened muscles helps them to relax and relieves pain from muscle ache & sore joints, it can also help to relieve stomach cramps, sinus congestion and joint stiffness.

Cold Therapies

Cold treatment reduces blood flow to an injured area which can help slow the rate of inflammation and reduce the risk of swelling and tissue damage so it is great for immediate treatment on minor injuries and tension headaches.
